PERSONAL STATEMENT

I am a young (37) futsal coach with a wide range of experiences at all levels in futsal, constantly striving to improve and innovate. I have worked on many different projects from elite to development and gained knowledge from many countries and coaches. While in Spain I took my UEFA B and UEFA A courses and experienced working in elite clubs. I have an excellent network of mentors and continue to study at every opportunity and have helped in delivering and writing futsal courses for coaches.

I am looking for a new opportunity to work with a club to develop a long-term plan that can sustain success. I have an excellent network to bring in top players for all budgets, including top Spanish academies and South America.
